

## D6417 Radio Frequency Receiver

### *Features*

- With a CRV-NET network port, a serial port.
- Daul ten ID dialing switch, support ID range: 1-99.
- With radio frequency 433MHz.
- Applying Manchester coding, greatly improves the reliability of wireless communications.

### *Description*

The radio frequency receiver is used in conjunction with a CREATIVE full range central control panel, which enables the wireless color touch screen to be connected to the central control panel via radio frequency signals for wireless communication.

## *Specification*

Parameter Name	Radio Frequency Receiver D6417
Input power	CRV-NET network 24VDC power supply
Input Current	300mA@12VDC
Can be connected to	XP1700B/XP2700B/XP3700,etc programmable touch screen
Dimensions	90H x 57W x 22D(MM)
Weight	0.7KG
