

MAG2123S(3U) Sequence Controller

Features

- Turn on or off the power of 10 controlled devices in sequence.
- Support automatic control via timer or manual control.
- Can be turned on automatically by a short circuit signal.
- With total capacity of the socket of 4.5kVA.
- Display the working voltage.
- Optional computer remote control.

Specification

Item	Specification
Output Capacity	Total capacity of 220V, 20A; maximum output current for each socket of 10A.
Timer Control Signal	Network trigger signal
Action Interval	0.4s-0.5s
Working Power	AC 220V/110V 50/60Hz
Protection	AC FUSH (220V: F0.6AL, 110V: F1AL)
Outer Dimension (mm)	(L×W×H) 555×455×185
Machine Dimension (mm)	(L×W×H) 484×349.5×88
Gross Weight	8.5kg
Net Weight	6.7kg
